

Vivid Seats Updates 2021 Financial Guidance

October 25, 2021

Files 8-K with the U.S. Securities and Exchange Commission

CHICAGO, Oct. 25, 2021 (GLOBE NEWSWIRE) -- Vivid Seats Inc. ("Vivid Seats" or the "Company"), a leading marketplace that utilizes its technology platform to connect millions of buyers with thousands of ticket sellers across hundreds of thousands of events each year, today announced that it had filed an 8-K with the U.S. Securities and Exchange Commission ("SEC") providing guidance regarding its financial and operational trends.

For the full-year 2021, the Company expects Marketplace GOV to be in the range of \$2,225,000,000 to \$2,325,000,000⁽¹⁾, Revenues to be in the range of \$420,000,000 to \$435,000,000 and Adjusted EBITDA to be in the range of \$102,000,000 to \$107,000,000⁽²⁾.

While the COVID-19 pandemic has had, and may continue to have, material impacts on the Company's business and operating results, the Company anticipates a smaller degree of impact on the above financial and operational results for full year 2021 than originally anticipated. The Company expects this off-cycle guidance to be a unique circumstance and hereafter expects to provide annual guidance at a regularly scheduled time each year.

On October 18, 2021, Vivid Seats completed a business combination with Horizon Acquisition Corporation. On October 19, 2021, the common stock and warrants of the Company began trading on the Nasdaq Global Market under the symbols "SEAT" and "SEATW," respectively.

(1) Marketplace GOV represents the total transactional amount of Marketplace segment orders placed on our platform in a period, inclusive of fees, exclusive of taxes, and net of event cancellations that occurred during that period.

(2) Adjusted EBITDA is not a measure defined under GAAP. GAAP means generally accepted accounting principles in the United States as in effect from time to time. We believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance. We calculate forward-looking non-GAAP Adjusted EBITDA based on internal forecasts that omit certain amounts that would be included in forward-looking GAAP net income (loss).

We do not attempt to provide a reconciliation of forward-looking non-GAAP Adjusted EBITDA guidance to forward looking GAAP net income (loss) because forecasting the timing or amount of items that have not yet occurred and are out of our control is inherently uncertain and unavailable without unreasonable efforts. Further, we believe that such reconciliations would imply a degree of precision and certainty that could be confusing to investors and could have a substantial impact on GAAP measures of financial performance.
