Use of Non-GAAP Financial Measures

We present Adjusted EBITDA, which is not a measure defined under GAAP, because it is a measure frequently used by analysts, investors, and other interested parties to evaluate companies in our industry. Further, we believe this measure is helpful in highlighting trends in our operating results, because it excludes the impact of items that are outside the control of management or not reflective of ongoing performance related directly to the operation of our business segments.

Adjusted EBITDA is a key measurement used by our management internally to make operating decisions, including those related to analyzing operating expenses, evaluating performance, and performing strategic planning and annual budgeting. Moreover, we believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance and highlighting trends in our operating results.

Adjusted EBITDA is not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP. Further limitations of Adjusted EBITDA are that it does not reflect all of the amounts associated with our operating results as determined in accordance with GAAP and may exclude costs that are recurring, such as interest expense, equity-based compensation, litigation, settlements and related costs and change in value of warrants. In addition, other companies may calculate Adjusted EBITDA differently than us, thereby limiting its usefulness as a comparative tool. We compensate for these limitations by providing specific information regarding the GAAP amounts excluded from Adjusted EBITDA.

The following is a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure, net income (loss) (in thousands):

- (1) We have historically incurred sales tax expense in jurisdictions where we expected to remit sales tax payments but were not yet collecting from customers. During the second half of 2021, we began collecting sales tax from customers in the required jurisdictions. The sales tax liability presented herein represents the tax liability for sales tax prior to the date we began collecting sales tax from customers reduced by abatements received, inclusive of any penalties and interest assessed by the jurisdictions. The aforementioned liability was fully paid in 2022.
- (2) Transaction costs consist of legal; accounting; tax and other professional fees; personnel-related costs, which consist of retention bonuses; and integration costs. Transaction costs recognized in 2022 were related to the merger transaction with Horizon Acquisition Corporation (the "Merger Transaction"), the acquisition of Betcha Sports, Inc. ("Betcha" rebranded as "Vivid Picks"), refinancing of the remaining June 2017 First Lien Loan with a new \$275.0 million term loan (the "February 2022 First Lien Loan") and our offering to the holders of our outstanding public warrants to receive shares of Class A Common Stock in exchange for each outstanding public warrant tendered by the holder. Transaction costs recognized in 2021 were related to the Merger Transaction, to the extent they were not eligible for capitalization, and the acquisition of Vivid Picks.
- (3) We incur equity-based compensation expenses for profits interests issued prior to the Merger Transaction and equity granted according to the 2021 Incentive Award Plan ("2021 Plan"), which we do not consider to be indicative of our core

operating performance. The 2021 Plan was approved and adopted in order to facilitate the grant of equity incentive awards to our employees and directors. The 2021 Plan became effective on October 18, 2021.

- (4) Loss on extinguishment of debt incurred in 2022 resulted from the extinguishment of the June 2017 First Lien Loan in February 2022. Loss on extinguishment of debt incurred in 2021 and 2020 resulted from the retirement of the May 2020 First Lien Loan, fees paid related to the early payment of a portion of the principal of the June 2017 First Lien Loan in October 2021, and the retirement of the revolving credit facility in May 2020.
- (5) These expenses relate to external legal costs and settlement costs, which were unrelated to our core business operations.
- (6) These charges relate to severance costs resulting from significant reductions in employee headcount due to the effects of the COVID-19 pandemic.
- (7) This relates to the revaluation of warrants to purchase common units of Hoya Intermediate ("Intermediate Units") held by Hoya Topco following the Merger Transaction.
- (8) This relates to the revaluation of Vivid Picks cash earnouts.
- (9) This relates to asset disposals, which are not considered indicative of our core operating performance.
