Marketplace GOV was negatively impacted by event cancellations in the amount of \$197.1 million during the nine months ended September 30, 2020 and \$74.8 million during the nine months ended September 30, 2021.

- (4) Adjusted EBITDA is not a measure defined under Generally Accepted Accounting Principles in the United States of America ("GAAP"). We believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance. See "Use of Non-GAAP Financial Measures" for additional information on non-GAAP financial measures and a reconciliation to the most comparable GAAP measure.

2021 Financial Guidance

The Company maintained the following full-year 2021 guidance:

- □ Marketplace GOV to be in the range of \$2,225,000,000 to \$2,325,000,000
 □ Revenues to be in the range of \$420,000,000 to \$435,000,000
 □ Adjusted EBITDA to be in the range of \$102,000,000 to \$107,000,000⁽⁵⁾
- (5) Adjusted EBITDA is not a measure defined under GAAP. We believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance. We calculate forward-looking non-GAAP Adjusted EBITDA based on internal forecasts that omit certain amounts that would be included in forward-looking GAAP net income (loss). We do not attempt to provide a reconciliation of forward-looking non-GAAP Adjusted EBITDA guidance to forward looking GAAP net income (loss) because forecasting the timing or amount of items that have not yet occurred and are out of our control is inherently uncertain and unavailable without unreasonable efforts. Further, we believe that such reconciliations would imply a degree of precision and certainty that could be confusing to investors and could have a substantial impact on GAAP measures of financial performance.

Use of Non-GAAP Financial Measures

We present Adjusted EBITDA, which is a non-GAAP measure, because it is a measure frequently used by analysts, investors, and other interested parties to evaluate companies in our industry. Further, we believe this measure is helpful in highlighting trends in our operating results, because they exclude the impact of items that are outside the control of management or not reflective of ongoing performance related directly to the operation of our business segments.

Adjusted EBITDA is a key measurement used by our management internally to make operating decisions, including those related to analyzing operating expenses, evaluating performance, and performing strategic planning and annual budgeting. Moreover, we believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our results of operations, as well as provides a useful measure for period-to-period comparisons of our business performance and highlighting trends in our operating results.

The following is a reconciliation of Adjusted EBITDA to its most directly comparable GAAP measure, net loss for each of the periods indicated (in thousands):

- (1) These expenses relate to sales tax liabilities incurred during the periods presented. We incur sales tax expenses in jurisdictions where we expect to remit sales tax payments. We are in the process of upgrading our IT infrastructure to enable us to collect sales tax from ticket buyers going forward. We expect these upgrades to be complete by December 31, 2021.
- (2) Transaction costs incurred during the three and nine months ended September 30, 2020 and 2021 consist primarily of transaction and transition related fees and expenses incurred in relation to completed and attempted acquisitions. Transaction costs consist of legal, accounting, tax and other professional fees, as well as personnel-related costs, which consist of severance and retention bonuses. Transaction costs consist of personnel costs associated with the integration of an acquiree. Transaction costs reflected above were incurred in the first 12 months following the completed acquisition of Fanxchange Ltd. in 2019. Transaction costs were recognized in 2021 related to the merger transaction with Horizon, to the extent they were not eligible for capitalization. We do not believe these acquisition-related costs to be representative of normal, recurring, cash operating expenses.
- (3) We incur equity-based compensation expenses, which we do not consider to be indicative of our core operating performance.
- (4) Losses incurred resulted from the retirement of the revolving credit facility in May 2020.
- (5) These expenses relate to external legal costs and settlement costs incurred, which were unrelated to our core business operations.
- (6) We incurred impairment charges triggered by the effects of the pandemic. The impairment charges resulted in a reduction in the carrying values of our goodwill, indefinite-lived trademark, definite-lived intangible assets, and other long-lived assets.
- (7) We incurred losses on asset disposals, which are not considered indicative of our core operating performance.
- (8) These charges relate to severance costs resulting from significant reductions in employee headcount due to the effects of the pandemic.
